

Akash Nishad

SENIOR FULL STACK DEVELOPER

+91-7054687468 | officialakash.gkp@gmail.com | Gorakhpur, Uttar Pradesh

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience in Laravel, REST APIs, and scalable eCommerce automation systems. Expertise in backend architecture, API integrations, high-volume processing, and system optimisation handling 50k+ records/day. Experienced in integrating Amazon SP-API, Shopify, Walmart, eBay, TikTok Shop, and advertising APIs for enterprise-scale operations.

EXPERIENCE

Senior Full Stack Developer

May 2025 - Present

5 Core Inc (Remote)

- Architected and developed a scalable multi-marketplace SaaS automation platform integrating 20+ global marketplaces including Amazon, Shopify, Walmart, eBay, TikTok Shop, SHEIN, Temu, and AliExpress.
- Engineered automated inventory management, order processing, pricing synchronisation, and marketplace operations processing 50K+ records/day.
- Developed secure REST APIs, webhook integrations, asynchronous queue systems, and centralized API architecture for real-time synchronisation.
- Integrated Meta Ads, Google Ads, Amazon Ads, and eBay Ads APIs with analytics dashboards for ROI analysis, conversion tracking, and ad spend optimisation.
- Designed analytics and reporting systems covering Profit & Loss (P&L), ROI, sales forecasting, gross profit analysis, and marketplace comparison.
- Built scalable HRMS modules including recruitment workflows, payroll management, employee monitoring, and task automation systems.
- Optimised database queries, indexing, caching, and backend performance, significantly improving API response time and scalability.
- Collaborated with cross-functional teams using Agile/Scrum methodologies ensuring rapid deployment and production stability.

Full Stack Developer

Aug 2019 - May 2025

Softintra Technology

- Developed and deployed 10+ production-grade web applications including CRM, HRM, ERP, eCommerce platforms, and business automation systems.
- Integrated secure payment gateways and third-party APIs including Razorpay, PhonePe, PayPal, and Stripe.
- Built responsive full stack applications with scalable backend architecture, authentication systems, RESTful APIs, and optimized database management.
- Led development initiatives, conducted code reviews, and mentored junior developers using Agile workflows.

PHP Developer (Part-Time Freelance Remote)

Mar 2019 - Jul 2019

JP Soft Company

- Developed dynamic web applications using PHP, MySQL, JavaScript, HTML, CSS, and Bootstrap.
- Worked on backend development, database management, bug fixing, and API integration for business websites and web applications.

- Collaborated with senior developers to implement Responsive UI components and optimize application performance.

PROJECTS

GitFolio Portfolio Generator

TypeScript, JavaScript, Next.js, React.js, Tailwind CSS, GitHub API

- Built GitFolio, a GitHub-based portfolio generator that automatically creates responsive developer portfolios by fetching GitHub repositories, profile data, skills, and project information.
- Implemented customizable templates, portfolio hosting, and seamless GitHub integration to help developers showcase their work professionally.
